

Computer's don't crash with parachutes...

In the volatile computer marketplace, Ryan Computer Services established a reputation for unparalleled reliability the hard way — by word-of-mouth. Today over 300 business clients in the Eastern Ontario area, including Fortune 100 companies, have told each other about the value of Ryan Computer Services.

In your face, at your door, dependability.

When seriously computer-dependent professionals mention Ryan Computer Services they mean business in three ways:

1. Time-critical service calls within the Greater Kingston radius-of-response (Belleville–Smith's Falls–Brockville-Ottawa) for consistent customer confidence.

"We get there very quickly and we stay until we know it's right."

2. Creative, clever solutions to custom-computing needs, integrating the latest application-specific hardware & software and new net-based technologies.

"Over time you actually create cost-effectiveness for the client."

3. Patient, polite, people-oriented communication every time. All the time.

"No jargon. You can't help people without listening to them."

Now *Ryan Computer Services* has enhanced its service profile offering the latest computing potential...
